

## Innovative Solutions and Essential Components

### Adhering to ASTM and FST Standards

North Coast Seal is uniquely positioned to serve the mass transit industry with all types of rubber seals and gaskets, in addition to a variety of plastic and metal components. From inflatable seals for sliding passenger doors to compression seals for access panels, railcars require components that are meticulously tested, meet precise ASTM standards, and comply with all flame, smoke and toxicity (FST) requirements.

NCS understands that all mass transit system components and sealing solutions must adhere to the most strict industry standards, consist of the highest quality materials, and be delivered on time. We can fulfill your product requirements, make sure all components meet ASTM, BSS, NFPA and FST industry standards, and provide dependable delivery.

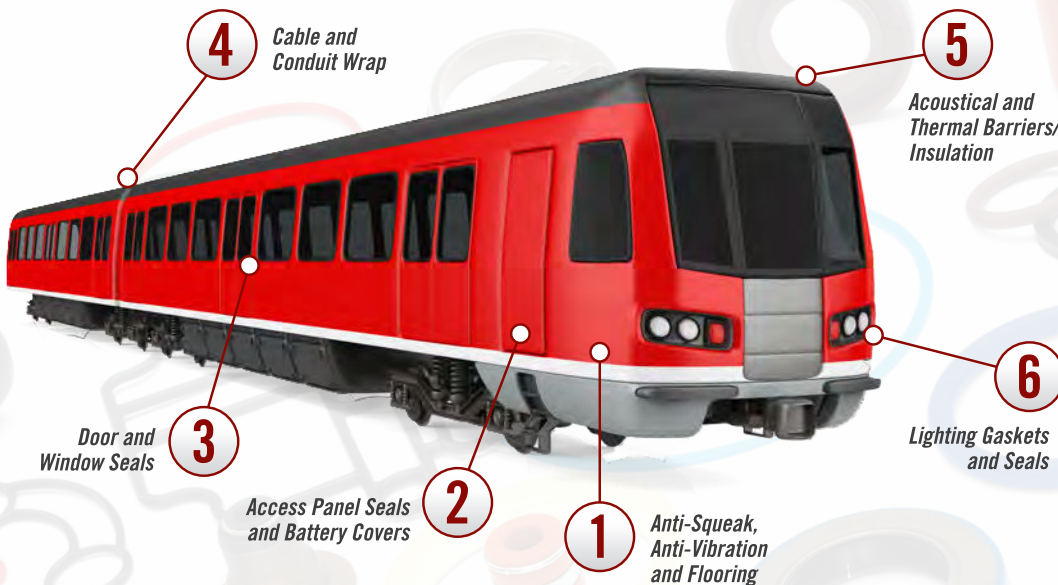

## Time-Tested Rubber Materials

- ✓ *ASTM E162*
- ✓ *ASTM E662*
- ✓ *ASTM C 542*
- ✓ *ASTM E1354*
- ✓ *BSS 7239*
- ✓ *NFPA 130 Compliant*
- ✓ *49CFR238 Compliant*

**Railcar sealing solutions with on-time delivery and proven adherence to industry standards**

## Popular Rubber Materials

- *Armaflex products*
- *Solid neoprene & closed cell neoprene*
- *Silicone in Solid, open-cell, closed-cell, sponge & foam*
- *Nitrile/Buna N*
- *EPDM*
- *PSA or adhesive backed products*

## Products and Services

- ✓ *Slitting*
- ✓ *All Seals including custom molded*
- ✓ *Gaskets*
- ✓ *Door and Window Seals*
- ✓ *Kitting*
- ✓ *Extrusion*
